

Features of the New Grenlec Bill

Great information in a format that's easier to follow

Customised

- Customers' bills are customised to include elements relevant to them.

Easier to follow

- See frequently used information "at a glance".
- Shows how your electricity charges were calculated.
- If your usage is estimated, your bill will include a visible note.

Redesigned usage history

- Includes a chart that shows the daily average usage. This is the most accurate indicator of increases or reductions in consumption.

New analysis section

- Gives the total consumption for the two most recent billing periods.
- Shows average consumption over the prior 6 months and the last year.
